## Sanitization and Safety during Student Transportation

### 1) Hand Sanitizer with Dispenser

*Alcohol-based hand sanitizer with at least 60% ethanol or at least 70% isopropanol content can be used. Sanitizing must not interfere with loading/unloading or driver's vision. Placement of dispensers must be approved by RMV/VSCS.*

*Please email [RMVSchoolBus@dot.state.ma.us](mailto:RMVSchoolBus@dot.state.ma.us) to request a visit for approval.*

### 2) Cleaning and Disinfecting Supplies

*The cleaning supplies must be stored in a container that is firmly secured directly behind the driver (first seat) and out of reach of students.*

### 3) Colored Tape to Designate Passenger Seating

*Must be flame retardant and firmly adhered to the seat with no edges lifting.*

### 4) Driver Protective Barrier (still investigating)

*More information to come.*

### 5) Students, Bus Drivers and Monitors are required to wear masks.
